### Print Ads - Creative Best Practices:

- CMYK – if you're using black to build your copy do not use all four colors, simply use K and that will ensure print quality. The fewer colors the very fast printing press needs to layer, the better.
- PDF or JPEG.
- Photos: 300 dpi, high resolution for best reproduction.
- Avoid small reversed out type.
- If we are building the ads for you, please send a PDF of your logo, any photos needed (jpeg), all ad copy, tagline etc.

**We look forward to adding your company to the growing family of successful businesses that advertise in the Ventura Breeze. Please contact us today to be included in the next issue.**
